PROFESSIONAL SUMMARY

Frontend Developer specializing in designing and developing modern web applications using React.js. Proficient in building responsive, maintainable, and performance-optimized UI components. Experienced in working in agile teams, managing end-to-end ownership, and delivering production-ready features. Seeking opportunities to grow as a scalable frontend engineer and contribute to high-impact applications.

EXPERIENCE

EMERGYS SOLUTIONS

Jan '24 – Present

Associate Consultant

- Worked on application code migration to improve structure and maintainability.
- Managed application state using Context API.
- Integrated backend services including GraphQL APIs built on C#.
- Developed real-time features using SignalR and built data-driven dashboards using Highcharts
- Optimized application performance by improving rendering efficiency, reducing unnecessary re-renders, and enhancing data-fetching logic.

Senior Software Engineer

- Translated Figma designs into responsive and consistent user interfaces using React.js and CoreUI, ensuring a smooth user experience across devices.
- Managed application state using Redux and implemented features like theme switching to enhance usability and flexibility.
- Integrated frontend components with Node.js APIs and built interactive charts using AmCharts to present dynamic data effectively.
- Identified, debugged, and resolved application issues to maintain performance and production stability.
- Collaborated within an agile team, managed tasks via Azure DevOps, and ensured timely and reliable feature delivery.

Frontend Intern (6 months)

- Completed structured training in HTML, CSS, JavaScript, and React.js, applying concepts through hands-on project development.
- Developed reusable UI components under guidance, following component-based architecture principles.
- Integrated frontend components with backend APIs.
- Practiced writing clean, readable, and maintainable code aligned with coding standards.

ATHENA AUTOMATION

Apr '23 – Aug '23

React.Js Intern

- Assisted in building UI components using React.js
- Implemented basic component logic and state handling.
- Identified and fixed UI issues within the frontend application.

EDUCATION

Marathwada Mitra Mandal's College of Engineering

May '24

BE Computer Engineering

- Score – 8.7 GPA

Sir Parshurambhau College

Mar '20

12th - Science

- HSC – 75%
- SSC – 89%

SKILLS

- **Frontend Technologies:** HTML, CSS, Javascript, Typescript, React JS, Next JS,
- **Styling & UI Frameworks:** Tailwind CSS, Modular CSS, styled components, Material UI, Core UI
- **Data Visualisation:** Highcharts, Amcharts
- **State Management:** Redux, Context API
- **Version control:** Git
- **Databases:** SQL
- **Tools:** Azure DevOps

ACHIEVEMENTS

- Best paper award at the International Conference on Emerging Trends in Machine Learning, Data Science & IoT (MITAOE) for the Scopus-indexed research paper “Identifying Musical Notes using Support Vector Machine”.
